

Teaching Blockchain

in the field of logistics

27 June 2018, 10:00-17:00

RDM Rotterdam

Innovation Dock ID 0.210

Blockchain is a promising innovation, which can help solve numerous problems in supply chains. At the moment it is applied mostly in finance, however, more and more logistic applications are being developed too. Can education keep up with the fast developments in the field? Is knowledge and application of Blockchain integrated in your teaching program? What kind of teaching material do you use? What kind of projects do you do? It seems that Blockchain knowledge is just as distributed as Blockchain itself.

RDM Centre of Expertise, part of Rotterdam University of Applied Sciences, is striving to collect and disseminate knowledge in the field of the logistic application of Blockchain. This includes building up a network, developing teaching material and integrating Blockchain projects in the logistic educational programs of the Rotterdam University of Applied Sciences: Logistics Engineering, Logistics Management, Business and Management Studies and Master Logistics Management. We have made a good start. Now we would like to share our knowledge within our organization and with the other Dutch Universities of Applied Sciences. We welcome teachers who wish to join the discussion.

For the event there will be a thesis contest for the best paper (thesis, report) on a logistic application of Blockchain. Each educational program can nominate one paper. The authors of the best three papers will be invited to present their research at the event. The best paper will receive a price of € 500. At the end of the event the website (Kennisbox) for Blockchain will be officially launched.

Program

10:00-10:30	Welcome with coffee
10:30-11:20	Keynote: Blockchain Today Prof. Dr. Ben van Lier (Guest Professor, Creating 010)
11:20-11:30	Coffee break
11:30-12:40	Best practices: - Jaap Goedebeur (HU Blockchainlab) - Leo Remijn (HR CMI/RDM) - Yvonne Lont (HR LE)
12:40-14:00	Network Lunch
14:00-15:20	Best practices: - Jolien Ubacht (TU Delft TBM) - Alfons Looman (HR IFM) - Klara Paardenkooper (HR MLM/RDM)
15:20-15:30	Coffee break
15:30-16:00	Presentation of the best three papers
16:00-16:15	Award ceremony
16:15-17:00	Launch Blockchain Kennisbox
17:00-17:30	Drinks
